Toll Free:
 1-800-301-1319

Please pour retainer impressions in stone and
 enclose completed prescription including your
signature and license number.

Call to schedule a due date before mailing to:

HARRIS ORTHODONTIC LABORATORY
3956 Brule Court
Sacramento, Ca 95821

Please check stone casts before mailing.
 Although some distortions are not detectable we
 will call if we notice any obvious distortions before
 we construct the appliance to avoid unnecessary
 remakes.

We use Rocky Mountain Blue Elgiloy wire in the
 construction of our appliances. Unless other wise
 indicated we use .030 for the hawley bow, .032
 for wrap-around retainers and "C" clasps.

Our cold cure acrylics are from JBC and Co., Great
 Lakes Orthodontics and Fricke.

All the designs featured are hand carved with ball
 burs and inlayed with the same cold cure acrylics.
